Little Goose Navigation Lock

Update #8

Progress Toward Reopening Lock Using Floating Bulkhead this Wednesday

Work at Little Goose Navigation lock located at Snake River mile 70.3 continues around the clock until the gate is stowed. The reopening scheduled Wednesday, 4 April at 1800hr remains on track.

Tuesday's critical lift to move the gate is complicated; weather represents the greatest unknown, though our confidence level is moderate to high it will not be a problem.

Updates will be provided as repair work progresses.

All recreational lockages will remain canceled until the lock is returned to full service.

Your cooperation in this matter is much appreciated. For additional information, please call Operations Division, at (509) 527-7115 or (509) 527-7114.

Public Notices and other navigation lock information are available on the Internet at:
